

The Ultimate REFORMER Series

COURSE DURATION

6-12 months from commencement

OVERVIEW

Walk away from the Ultimate Reformer Certification as a qualified instructor of the highest calibre; well versed in Pilates principles, program design, exercise sequencing techniques and practice, with emphasis on group dynamics for the Pilates Reformer. You will be confident in verbal, tactile and combined cueing practices to facilitate motor learning and be competent to work with healthy clients one-on-one and in group.

You will be ready to instruct Reformer classes in a Pilates studio, small group session (semi or private), gym group classes, health centre group classes, home and corporate environment for beginner to advanced levels.

COURSE PRE-REQUISITES

Minimum requirements for entry into this course are:

- Attainment of HSC / Secondary education or tertiary education equivalent
- A good understanding of Pilates – a minimum of 25 hours of personal Pilates practice either in private or group sessions. This may include matwork and studio work (*preferably with a Polestar Pilates certified practitioner*). This can be provided as a log from your studio/gym or letter/email from your Pilates practitioner.
- Successfully completed HLTAAP001– Recognise healthy body systems in a health care context (or equivalent) attained through a recognised complementary health care college or RTO. This equates to one semester of basic anatomy/physiology or equivalent.
- Completion of Polestar Matwork Series or Pilates Mat qualification from another Pilates education school of equivalent level.

ANATOMY AND PHYSIOLOGY REQUIREMENTS

Polestar Pilates Courses require the completion of basic anatomy/physiology. If you are already qualified in one of the following occupations you will qualify for RPL: *Physiotherapist, Osteopath, Exercise Physiologist, Nurse, Myo therapist, Remedial Massage Therapist, Cert IV Personal Trainer*. However, if you are from a different background and have NOT completed any basic Anatomy and Physiology education completion, it is required prior to the start of your course. ***Polestar provides an online Anatomy course that meets these requirements, it is at an additional fee of \$350. Please contact Polestar directly for further information.***

COURSE STRUCTURE & UNITS

The following table outlines the units of competency that make up the Polestar Pilates Ultimate Reformer Series. The course is delivered over two three-day courses (Friday, Saturday & Sunday). [usual hours Fri & Sat 12pm-5pm & Sun 8am-12pm, but may vary in different cities]

The courses must be taken in the following order: **PP, REF1, REF2 & REF3.**

UNIT	UNIT OF COMPETENCY
PP	Polestar Pilates Principles of Movement - ONLINE
REF1	Plan and instruct a beginner Polestar Pilates Reformer class
REF2	Plan and instruct an intermediate Polestar Pilates Reformer class
REF3	Plan and instruct an advanced Polestar Pilates Reformer class

PP - Pilates Principles of Movement - ONLINE

Learn and apply the theories of movement that lay the foundation for Polestar Pilates in this prerequisite for all other Polestar courses. Using evidence-based research, you will discover the passage ways for movement throughout the body and develop the tools to provide either assistance for or challenge your clients in helping them achieve their goals. Polestar Principles will bring to life your ability to assess, problem-solve, design and modify exercise programs to meet specific needs and abilities.

This non-apparatus course introduces current research in movement science, motor learning, bioenergetics, and communication science to instructional practice through basic movement principles which are used throughout the Polestar Pilates curriculum. This course introduces Polestar Assessment Tool™, which includes postural evaluation and functional testing, to prepare you to properly design a plan to implement Pilates exercises for clients. This unique component significantly enhances decision-making skills as a Pilates practitioner.

Students will complete online (self-paced) modules about each Principle inclusive of built in webinars and attend a live online lecture hosted by an Educator, to revise and discuss the findings in the unit. There are 6 modules for students to complete with 6 follow up online discussions. Students must purchase the accompanying manual for this course on Amazon, below is the link to purchase:

<https://www.amazon.com.au/Principles-Movement-B-Anderson/dp/1630914681>

For those individuals taking more than one course (such as Reformer and/or Comprehensive Studio/Rehab), this course is required only once.

REF1-REF3: Reformer Levels 1-3

Maximize your use and application of this most versatile piece of apparatus in Pilates, the reformer. Become proficient with assessment techniques, Pilates reformer exercises, movement sequences, and the application of Polestar Principles that you can use to excel your own practice or in a Pilates studio environment. The Polestar Pilates Reformer Series consists of three lectures designed with all movement specialists in mind – from physical therapists to personal trainers and group instructors.

After the Pilates Principles of Movement course (PP), the Pilates Mat program continues with two, three day lectures scheduled approximately one month apart. The time between courses allows you to practice and

become comfortable with the material before continuing to the next course and level of repertoire with the inclusion of 2 Practicums.

The principles learned in PP will be applied throughout the two lectures and you will learn the following:

- Reformer exercises for beginners through to advanced levels
- Dynamics of group training
- Program design and exercise sequencing
- Advanced cueing skills
- Exercise modifications for a variety of population

COURSE ASSESSMENT

Assessment requirements include: attending all of the course hours, completing reading and writing assignments as well as a specified number of observation, self-mastery, and apprentice teaching hours as noted below. To track your hours and progress, a log book will be issued at the start of the course with your materials. Certificates will be granted upon successful completion of the log book and an 80% pass mark on the final exam. The delivery modes are made up of approximately 260 nominal hours and are broken down as follows:

Lectures & Homework	Observation	Practice (Self-Mastery)	Apprentice Teaching
130	30	50	50

Lectures: Lecture hours include formal lecture/workshop face-to-face delivery, practical and written assessments and mandatory tutorial hours.

Observation: Observation is where the student observes a studio in action, and has their hours signed off by a certified practitioner (50% must be under a Polestar qualified instructor). 10 observation hours online can be used towards this requirement.

Self-Mastery (and Self-Directed): These hours are for students to practice the exercises learnt in the curriculum so as to master the repertoire. Self-mastery hours include 15 hours of self-directed study i.e. practicing the repertoire in your own time at home or with other students (not under supervision of a qualified teacher).

NOTE: Polestar Online Academy can also be used as a tool for your self-practice hours. The remaining hours may be a combination of reformer and/or studio sessions.

Apprentice Teaching: Once you feel confident in the repertoire, you will be expected to assist a Pilates practitioner (50% Polestar qualified) within a Pilates Studio workplace in order to gain practical experience. You will teach 2 – 3 exercises in their class, under their guidance and assist with tactile cueing and client correction for the remaining hour to achieve sign off.

NOTE: a qualified Pilates instructor must be present at all apprentice teaching sessions to provide sign off and feedback.

Self-Study Requirements: following is the recommended MINIMUM hours required per week for duration of the course:

- Self-Practice - minimum 1 hour per week
- Supervised Practice - minimum 2 hours per week
- Observation - minimum 2 hours per week
- Written homework – minimum 2 hours per month

For all hours, 50% can be completed with a non-Polestar trained instructor.

Practicums:

Practicums help accelerate your teaching and demonstration hours in a supported environment with an Educator. Teaching is within a clinical format against units of competency and allows students to accrue 2 hours for 1 hour (1:2) towards their student logbook. Topics included will be review of Theory, Repertoire, Case Studies and Self-Mastery demonstration and teaching. They are scheduled generally over 4hrs but can be shorter and some are online.

There are 2 Practicums scheduled as part of the Comprehensive course and are included in the course fees. All other practicums are optional and the schedule for booking can be found here:

<https://www.polestarpilates.edu.au/practicums/>

TEXT BOOKS:

- Polestar Principles of Movement – Brent Anderson - <https://www.amazon.com.au/Principles-Movement-B-Anderson/dp/1630914681>
- Anatomy of Movement, Blandine Calais-Germain: Eastland Press 1993
- Pilates Evolution, the 21st Century or Return to Life through Contrology - Joseph Pilates: Bain Bridge Books
- Dynamic Alignment Through Imagery, Eric Franklin: Human Kinetics 1996
